APPLICATION FOR REVIEW OF SECTION 2(ee) USE RECOMMENDATION

Note: WSDA will not review a section 2(ee) use recommendation unless a completed application form is submitted with a copy of the section 2(ee) use recommendation. WSDA does not require registration or review of section 2(ee) use recommendations. Before you complete this form please refer to instructions on reverse.

Product Brand Name:	EPA Reg. Number:	Crop/Site & Pest:
Registrant:		Phone:
Mailing Address:		Fax:
		Email:
Briefly explain the purpose(s) for the section 2(ee) use recommendation:		

If any of the items below are checked "YES," then this is not a section 2(ee) use recommendation. A recommendation that prompts a "YES" response below likely requires a change to the section 3 registration or issuance of a section 24c registration:

Comparing the section 2(ee) use recommendation to the section 3 label:	NO	YES
Is the recommended use on a new crop/site, or does it expand an existing crop/site?	<input type="checkbox"/>	<input type="checkbox"/>
Is there an increase in the label rate, dosage, concentration or frequency of application?	<input type="checkbox"/>	<input type="checkbox"/>
Is there an increase in the number of applications?	<input type="checkbox"/>	<input type="checkbox"/>
Is there a decrease in the interval between applications?	<input type="checkbox"/>	<input type="checkbox"/>
Is there a shorter pre-harvest interval (PHI)?	<input type="checkbox"/>	<input type="checkbox"/>
Is there a change in the type of application (i.e. - soil to foliar or seed treatment to foliar)?	<input type="checkbox"/>	<input type="checkbox"/>
Has chemigation been added as a method of application?	<input type="checkbox"/>	<input type="checkbox"/>
Is a new timing of application recommended?	<input type="checkbox"/>	<input type="checkbox"/>

I certify that (1) the information stated above is correct, (2) any reference to tank mixes with other pesticides are consistent with FIFRA and the referenced product label(s), and (3) any other pesticide referenced on the section 2(ee) bulletin (including a spray adjuvant) is properly registered with WSDA.

Signature	Print Name	Date
-----------	------------	------

SECTION 2(ee) USE RECOMMENDATIONS

Section 2(ee) of FIFRA allows pesticide users to apply pesticides under certain limited conditions that are not specified on a pesticide label. Written bulletins or recommendations are not required for applicators to make applications that are allowed under section 2(ee). Registrants sometimes issue section 2(ee) use recommendations for their products in the form of written bulletins. These written bulletins are not labels nor are they required to be registered with WSDA. However, written bulletins are considered "labeling" and must be consistent with FIFRA requirements and the section 3 label.

Section 2(ee) of FIFRA allows that a pesticide may be:

- Applied at any dosage, concentration, or frequency less than that specified on the label (unless the label specifically prohibits such an application).
- Applied against any target pest not specified on the label (unless EPA has required that the pesticide may be used only for the specified pests).
- Applied by any method not prohibited by the label (unless the label specifically states the pesticide may be applied only by the methods specified on the label).
- Mixed with another pesticide or a fertilizer (if not prohibited by the label).

WSDA does not require registration or review of section 2(ee) use recommendations. However, WSDA will review a section 2(ee) use recommendation upon submission of a completed application for review of section 2(ee) use recommendations (AGR 630-4323). Explain the purpose of the section 2(ee) recommendation and complete the checklist section. Submit a completed application form with a copy of the section 2(ee) use recommendation. Section 2(ee) use recommendations will not appear on the pesticide renewal printout or on the WSU web site.

Please be aware that section 2(ee) use recommendations are subject to the following restrictions:

- (1) The section 2(ee) use recommendation cannot add a crop/site, or expand an existing crop/site.
- (2) The section 2(ee) use recommendation cannot increase the dosage, concentration or frequency of application.
- (3) The section 2(ee) use recommendation cannot decrease the pre-harvest interval or the interval between applications.
- (4) The section 2(ee) use recommendation cannot change the timing or type of application.
- (5) The section 2(ee) use recommendation cannot add chemigation as a method of application.
- (6) The section 2(ee) use recommendation cannot allow a lower dosage or concentration than specified on the label for pre-construction termiticide uses (refer to EPA PR Notice 96-7).
- (7) The section 2(ee) use recommendation cannot require the applicator to have a copy of the recommendation in their possession at the time of application.

Pesticide applicators are not required to have a copy of the section 2(ee) use recommendation when making an application allowed under section 2(ee) of FIFRA. Written bulletins may not include statements or requirements to the contrary. The registrant is responsible for ensuring the recommended use is consistent with the section 3 label and is allowed under section 2(ee). Registrants should be aware that distribution of an incorrect section 2(ee) recommendation is an unlawful act that can result in compliance action.

WSDA CONTACT INFORMATION

For information on section 2(ee) recommendation review contact the WSDA Pesticide Registration Section at (360) 902-2030 or e-mail pestreg@agr.wa.gov. The fax number is (360) 902-2093. WSDA laws and rules, forms, guidance documents, fact sheets, program information, contacts, and news releases are available on the WSDA web site at www.wa.gov/agr/pmd.
